

# SSH-TYPE HIGH PRESSURE CLAMP

## SSH-TYPE

The SSH is a double bolted to ensure optimum clamping force specifically designed for high pressure steam lines. Both stainless steel and brass nuts are available to suit individual customer preference. The main clamp halves are 304 stainless steel.

**Connections** To suit 1/2" - 6" ASME BPE clamp fittings

**Material** 304 stainless steel

**Surface Finish** All surfaces - bright polish

**Options**  
 Brass or stainless steel nuts  
 Larger sizes  
 Machining to suit ported gaskets  
 Machining to suit tabbed orifice plates

**Certification** Certificate of conformity

Clamp end (ASME BPE)	Max pressure (bar @ 150°C)	ØA (mm)	ØB (mm)	ØC (mm)	D (mm)
1/2" / 3/4"	75	25	65	35	16
1" / 1-1/2"	75	50.5	103	66	26
2"	75	64	113	77	26
2-1/2"	75	77.5	131	95	26
3"	60	91	137	110	26
4"	53	119	173	137	26
6"	45	167	240	185	26
